Calag strengthens its cabin construction sales team with Guido Ammon

Calag Carrosserie Langenthal AG introduces Guido Ammon as the new Project Manager Sales in Cabin Construction.

Mr. Ammon has already started his work at Calag in March and will in future be responsible for the sale of aerial tramway cabins, funicular cars and special cabins. Guido Ammon brings with him many years of experience in project management and the sale of capital goods in the international market. He is the ideal person for this role to further expand Calag's cabin business and to be able to competently advise and support Calag customers in the future.

Marc Pfister will continue to support us as a member of the Calag Board of Directors and as a member of the Cabins Sales Team with his extensive know-how from many years in the cabins business.

The experienced Gangloff Cabins team, complemented by Calag's bodywork and light metal construction specialists, is the ideal basis for producing unique cabins.

Information about Calag Carrosserie Langenthal AG

Calag is one of the leading companies in Switzerland in the fields of vehicle construction, cabin construction, bodywork, repair and service, painting and lettering. With our state-of-the-art infrastructure and our competent specialists, we are a first-class problem solver for complex tasks.

Calag Gangloff - Your cabin construction expert

In April 2018, Calag took over the activities of Gangloff Cabins in the areas of cabins for aerial tramways, carriages for funicular railways as well as special cabins for amusement park facilities and other custom-made products and continues these areas as Calag-Gangloff Kabinenbau.

130 years of car body construction tradition, state-of-the-art infrastructure in all areas and highly qualified and motivated employees in all car body professions are a guarantee for professional and qualitative top performance.
